

INTRO TO WATER

A low-friction employee wellness pilot

A company-sponsored first experience that lets employees try swimming safely before HR or staff commit to a longer programme.

Built to answer two practical HR questions: will employees participate, and will the experience visibly support their wellbeing?

8-10 employees Suggested first group; adjusted to venue and coach coverage.	2 hours Guided, beginner-friendly water-confidence experience.
Saturday morning Low disruption to the working week.	Lagos partner pool Yaba, VI, Ikoyi or Festac; final venue follows participant needs.

WHY SWIMMING

- Supports physical wellbeing through low-impact cardio, mobility and recovery.
- Helps employees decompress beyond the usual office, gym or screen routine.
- Builds confidence and water-safety skills they keep beyond work.
- Includes adults who avoid water from fear, embarrassment or limited access.

WHAT EMPLOYEES EXPERIENCE

- Warm orientation for adults with little or no water confidence.
- Guided breathing, floating and safe movement fundamentals.
- Small-group coaching with no pressure to perform.
- A clear next step only for employees who want to continue.

WHAT HR RECEIVES

- Registration, attendance and engagement summary.
- Anonymous before/after confidence and wellbeing pulse.
- Satisfaction, comments and interest in continuing.
- Recommendation to stop, repeat, or progress to a cohort.

WHY THIS PILOT

- Employees experience the value before deciding whether to continue.
- Company sponsorship reduces financial friction at the first step.
- HR measures real participation instead of relying on announcement interest.
- A longer cohort is considered only if genuine demand exists.

WHAT SWIMBUDDZ HANDLES

- Interest form and simple pre-session safety screening.
- Coach coverage and partner-pool coordination.
- Teaching aids where needed: kickboards, pool noodles or float supports.
- Employee reminders, session-day logistics and concise HR report.

COMMERCIAL & PRIVACY

- Recommended: the company sponsors the first session so employees pay nothing.
- Final pilot fee is confirmed after headcount and venue are agreed.
- Personal fears, health notes and skill details stay with the coach.
- HR receives only agreed, aggregated feedback.

A SIMPLE FOUR-STEP START

1 Scope 20-minute HR call	2 Confirm Date, venue, headcount
3 Launch SwimBuddz opens registration	4 Report Session + report within 3 business days

Suggested next step: a 15-20 minute planning call to confirm headcount, likely location, sponsorship level and whether the pilot is only for feedback or a pathway into a 12-week cohort.
