

SWIMBUDDZ

CORPORATE WELLNESS · LAGOS

The wellness benefit your team will actually finish.

A 12-week structured adult swim program for Lagos employers.

Most adults in Lagos never learned to swim, or learned badly as kids and gave up. SwimBuddz turns that quiet anxiety into a structured, photogenic, lifelong skill — delivered as a wellness benefit your employees will actually use, finish, and remember.

The wellness budget you don't waste

Your professionals work 50+ hours a week. Sedentary, screen-heavy, stressed. Wellness budgets get spent on gym memberships nobody uses past March, mental health apps that go unopened, and team yoga classes attended by the same five people.

Adults across Lagos share one quiet anxiety: **most of them never learned to swim**. Some are afraid of water. Some learned badly as kids and gave up. Most have never been given a structured way to fix it as adults.

The **SwimBuddz 12-Week Adult Swim Program** is an alternative wellness benefit that gets used, finished, and remembered.

What employees get

- 12-week structured swim cohort, beginner-friendly
- Saturday mornings, 90-minute sessions, Lagos partner pool
- Trauma-informed coaching — designed for adults who never learned
- Distance-based milestones, structured curriculum, community of peers
- WhatsApp group, milestone certificates, post-program access to SwimBuddz Club
- A skill that lasts a lifetime — and doesn't require daily discipline

Why swimming, specifically

- **Zero impact** — lower injury rate than gym, accessible to all body types
- **Real recovery** — water is regulating; cortisol drops measurably during swim
- **Lifelong skill** — once learned, never forgotten
- **Community-driven** — group format builds bonds your team retreats can't
- **Photogenic outcomes** — your CSR / employer brand team will thank you

More than a wellness benefit

Most wellness perks expire at the office door. Once an employee learns to swim, the skill ripples outward — into their family, their weekends, and the next thirty years of their life.

At work

- **Stress regulation that lasts beyond Saturday** — water is uniquely down-regulating; calmer baselines carry into the weekday
- **Cohesion across departments** — cohort friendships outlast team retreats and build informal cross-team networks
- **Internal storytelling that earns its keep** — completion rates, before/after testimonials, and photo content HR can actually use
- **Sleep, energy, and presence** — regular swimmers report better sleep and steadier energy through the week

At home

- **Employees teach their kids** — one trained adult raises a generation that swims
- **Real water safety** — in a city surrounded by water, household risk drops when adults can swim and teach their children
- **Shared family activity** — partners and parents who swim together; weekends that don't revolve around screens
- **A quiet anxiety, finally resolved** — the embarrassment most adults carry about not swimming gets put down for good

For life

- **Vacation confidence** — beaches, hotel pools, and boat rides become destinations, not stressors
- **Mental health regulation** — repetitive, low-impact, sensory-rich; one of the most sustainable stress outlets adults find
- **Exercise that ages with you** — joints intact past 60, unlike high-impact alternatives
- **A hobby that grows** — open water, masters meets, coaching others — long after the 12 weeks end

Pricing

Employees enrolled	Per-employee cost	Total
1 – 4	¥150,000 (full price)	—
5 – 9 (recommended)	¥135,000 (10% off)	¥675k – ¥1.215M
10+	¥127,500 (15% off)	¥1.275M+

Pricing includes coaching, curriculum, onboarding, HR reporting, and pool access at a confirmed standard partner pool. Premium, island, private, or exclusive-use venues are quoted separately.

Optional add-ons

- **Company-sponsored "Intro to Water" pilot** — 2-hour beginner-friendly water-confidence session, priced by headcount/location
- Starter swim kits and branded merchandise (caps, goggles, swimwear, towels), quoted separately
- Quarterly SwimBuddz Wrapped report for HR (attendance, milestones, employee testimonials)

Pilot offer (limited)

The first 5 corporate partners get the pilot package:

- No setup or admin fees
- Preferred pricing on the first company-sponsored Intro to Water pilot
- Outcome report shared with HR at week 6 and week 12
- Optional employer co-branding on graduation certificates

Logistics

- **Cohort schedule** — new cohorts start every 8 – 12 weeks
- **Location** — Lagos partner pools (Ikoyi, VI, Yaba, Festac — confirmed per cohort)
- **Time commitment** — 90 – 120 mins per week, Saturday mornings
- **Onboarding** — each employee gets a SwimBuddz account, individual progress tracking, and access to the broader SwimBuddz community
- **Privacy** — health-relevant data (skill level, fears, conditions) stays with the coach. Never shared with the employer.

Outcomes you can measure

- Attendance rate per cohort (target: >85%)
- Completion rate (target: >75% reach 50m freestyle)
- Self-reported wellness improvement (pre/post survey)
- Net Promoter Score from employees
- Photo / video assets for internal comms and CSR reporting

Get started

Reply to schedule a 20-minute intro call. We'll walk through the curriculum, answer questions, and confirm whether SwimBuddz is the right fit for your team.
