

INTRO TO WATER

A low-commitment employee wellness pilot

A one-off, company-sponsored weekend session that lets Nestuge test employee interest before considering a longer swim programme.

Designed around four practical realities: employee time, cost, sustained participation, and Island/Mainland accessibility.

PILOT AT A GLANCE

8–10 employees Suggested start; final size follows venue and coach coverage.	90 minutes One guided session with no 12-week commitment.	Saturday morning Outside the work week and limited to one session.	Location-led venue Yaba, VI, Ikoyi or Festac, chosen after a participant location check.
--	---	--	--

WHY THIS FORMAT

- Employees experience the value before deciding whether a longer programme is worth the time and cost.
- HR measures actual demand instead of asking the team to commit based on interest alone.
- The session has a defined start and finish, reducing the risk of momentum fading over several weeks.
- A full cohort is considered only if enough employees actively want to continue.

WHAT EMPLOYEES EXPERIENCE

- A warm, beginner-friendly orientation designed for adults with little or no water confidence.
- Guided breathing, floating and safe movement fundamentals.
- Small-group coaching with no pressure to perform or already know how to swim.
- A clear next step, with no obligation to join the 12-week programme.

SWIMBUDDZ HANDLES

- Interest form, participant location check and pre-session screening.
- Pool, coach, basic equipment and session-plan coordination.
- Reminders, session delivery and employee feedback collection.

NESTUGE PROVIDES

- One People/Operations contact for coordination.
- Approval of the date, venue and final quote.
- Internal circulation of the registration link and pilot sponsorship.

SAFETY & PRIVACY

- Brief health and water-confidence screening before the session.
- Coach coverage adjusted to the venue and participant needs.
- Personal health, fear and skill details remain with the coach; HR receives aggregated feedback only.

WHAT HR RECEIVES

- Registration, attendance and engagement summary.
- Anonymous before/after confidence and wellbeing pulse.
- Satisfaction, comments and interest in continuing.
- A recommendation to stop, repeat, or progress to a cohort.

COMMERCIAL STRUCTURE

Recommended: Nestuge sponsors the capped first session so employees pay ₦0.

The final quote follows headcount and venue and will state pool access explicitly. It covers coaching, coordination, registration, reminders, basic session equipment and the post-session report.

Transport, personal swimwear and premium-venue upgrades are excluded unless agreed separately.

A SIMPLE FOUR-STEP START

1 Interest check

Short internal form

2 Scope

Date, areas, headcount, budget

3 Confirm & launch

Quote approved; registration opens

4 Run & report

Session + report within 3 business days
